

How to Buy Industrial or Research Gases and Related Products:

The University of Nebraska-Lincoln has established a prime vendor contract with **Linweld Inc.** for industrial and research gases as a result of a competitive bid process. Most items are available at contracted discount pricing along with free shipping and delivery.

There are hazards associated with the use of these products. If you require specifics relating to any Linweld products please contact Les Hornung at the contact information provided below.

PRICING:

Items are priced based on bid pricing submitted and may be adjusted annually or in limited situations based on market conditions.

ORDERING:

Authorized customers may order on-line with your log-on and password. If you are not setup for web ordering please contact Les Hornung, Phone (402) 434-6010 and fax (402) 434-6016 are also accepted.

Orders will be delivered to a dock area as determined by the UNL ordering department.

Orders will normally be delivered the next workday.

Emergency orders should be placed in the morning for same day delivery (M-F). If an item is needed immediately, Linweld may be able to make same day delivery. Emergency delivery service should not be abused by UNL, we ask you to use common sense when placing orders for delivery.

There will be no charge for delivery services.

Linweld Inc. WEB SITE: www.linweld.com/

UNL staff can access Linweld's web site for product information and other information with on-line capability.
